2022 Membership Investment Campaign

OUR MISSION

Our primary focus is community and economic development for member communities including the creation of jobs and strengthening or expanding their existing businesses!

Celebrating 35 years of success!
1986—2021

RADC INVESTOR BENEFITS

COME FOR THE JOB, STAY FOR THE LIFESTYLE!

OUR HISTORY

Since the Redwood Area Development Corporation was organized in 1986 by area community business leaders, we continue to make great strides in representing our area communities as a key asset in the field of economic and community development. Your business investment, partnership, and support of the RADC makes a difference.

Our competitors are no longer the next community down the road from you. We now live in a global economy where the world is flat and business can be done anywhere, at any time.

With tense competition in the business world, it is extremely important to retain and expand our existing businesses in our local communities as well as attract new business. As businesses assess their options, the RADC has the ability to assist your business through financial assistance, business planning, infrastructure, grant writing and as an advocate for your business needs.

From 1986 through 2021:

RADC has assisted with loans and grants benefiting our area consisting of more than $93.5 million.

YOUR PARTNERSHIP INVESTMENT

You have already made a stake in our Redwood Area by establishing your business here, living here and providing employment opportunities here. A good economic environment requires a thriving economic development corporation which through leadership, volunteerism, paid staff, and financial resources is empowered to continue creating a progressive place for our future success! The future of the Redwood Area businesses depends on your cooperation and working together in creating a strong economic business environment to attract and maintain businesses to locate here.

Sincerely,

RADC Board of Directors & Staff
